

Fino

Single Dose Coffee Grinder

COMPAK

Fino is **COMPAK**'s new low profile, single dose coffee grinder created and designed for home use. It offers exceptional precision to meet the needs of coffee lovers looking to brew café quality drinks in the convenience of their home. Its intuitive interface allows you to adjust the grind range **from French press to Turkish coffee** with the turn of a dial. Designed for daily use, **Fino** is very easy and quick to clean.

For precision enthusiasts, the **Fino Scale** model includes an **integrated scale and TFT display**, offering precise control and an enhanced grinding experience. **Enjoy professional-quality coffee without leaving home!**

Common features

Built-in bellows for expelling coffee grounds in **Fino Scale** (optional with **Fino**)

High-performance **Ø63 mm conical burrs**

Optimal coffee distribution and output

65 g **dosing cup**

Built-in scale (in **Fino Scale**)

Micrometric regulation
from **<100 µm** (Turkish coffee) to **>850 µm** (French press)

250 W motor at **360 rpm**

Designed for all types of grinding

From the intensity of Turkish coffee
to the delicate flavor notes of French press

The secret of our burrs

Manufactured from
**high-durability hardened
steel K110**

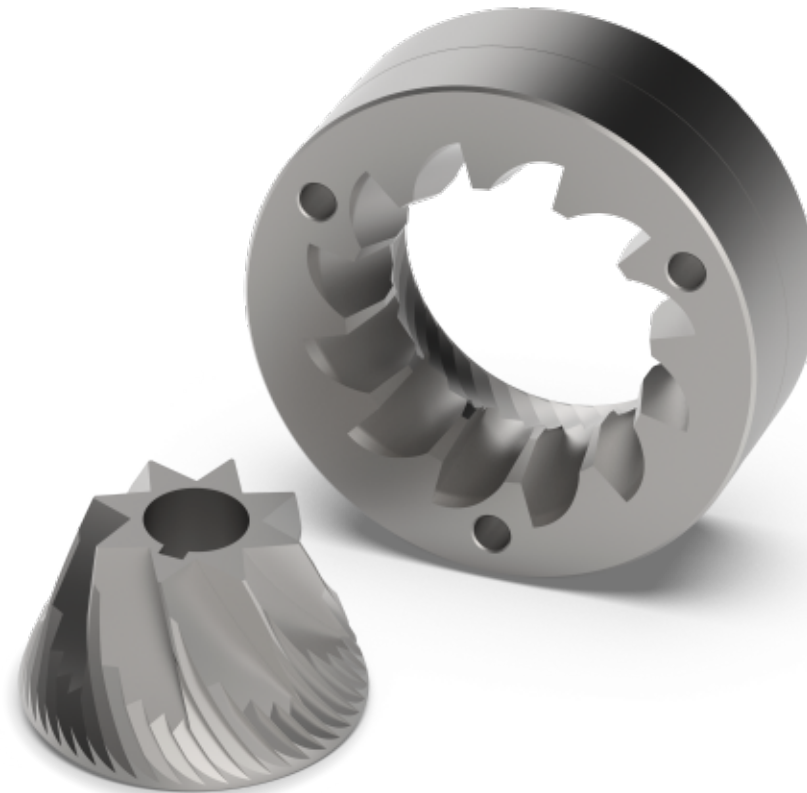

Food-grade material

Enhance the durability
of standard steel burrs

Reduction in decibels during
grinding thanks to the optimization
of the burrs' geometry

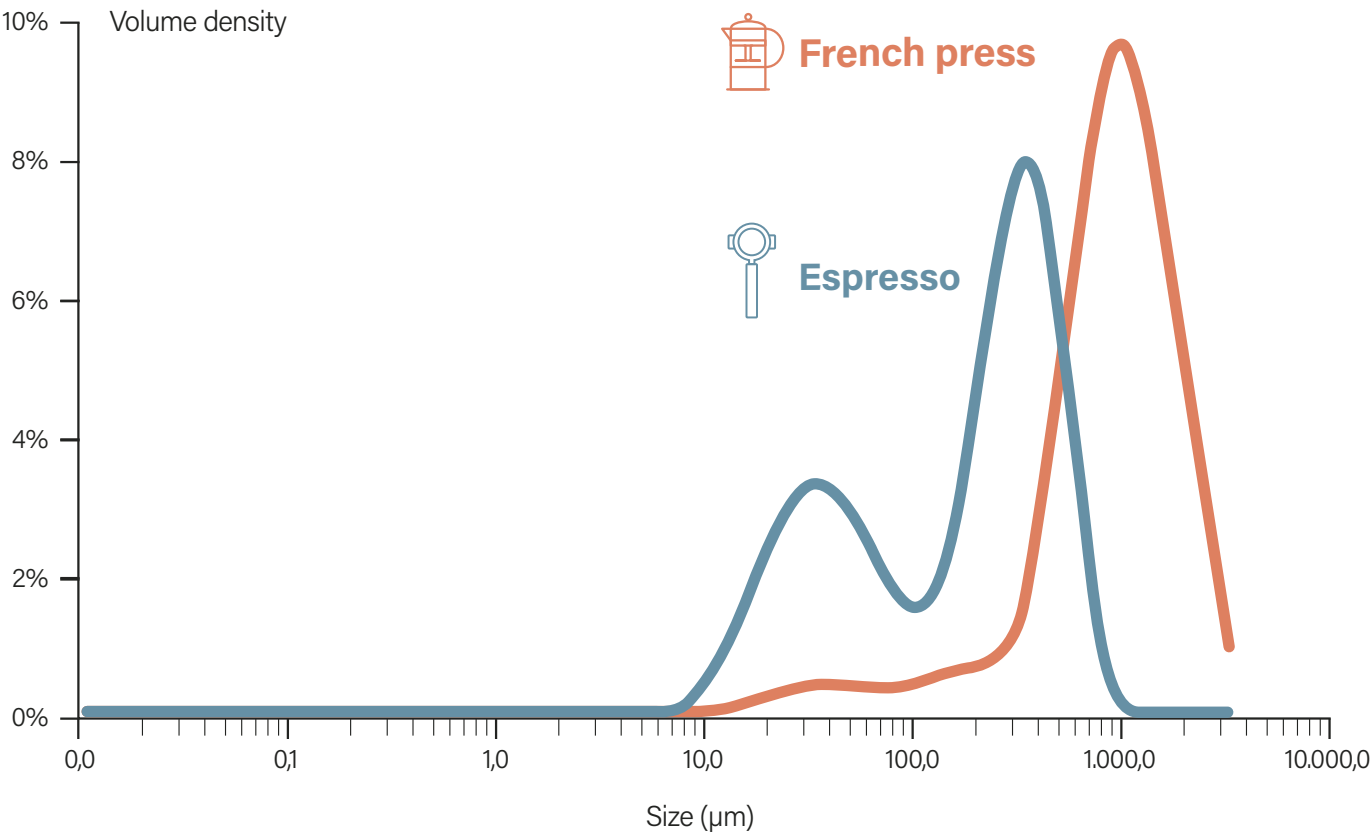

Conical Ø63 mm

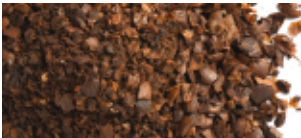

Durability: **750 Kg**

Particle size analysis

With particle size distribution graphs, **we can precisely adjust the grind according to the preparation method**, from Turkish coffee to French press, ensuring **perfect extraction in every case**

French Press

Chemex

Drip

Mokka

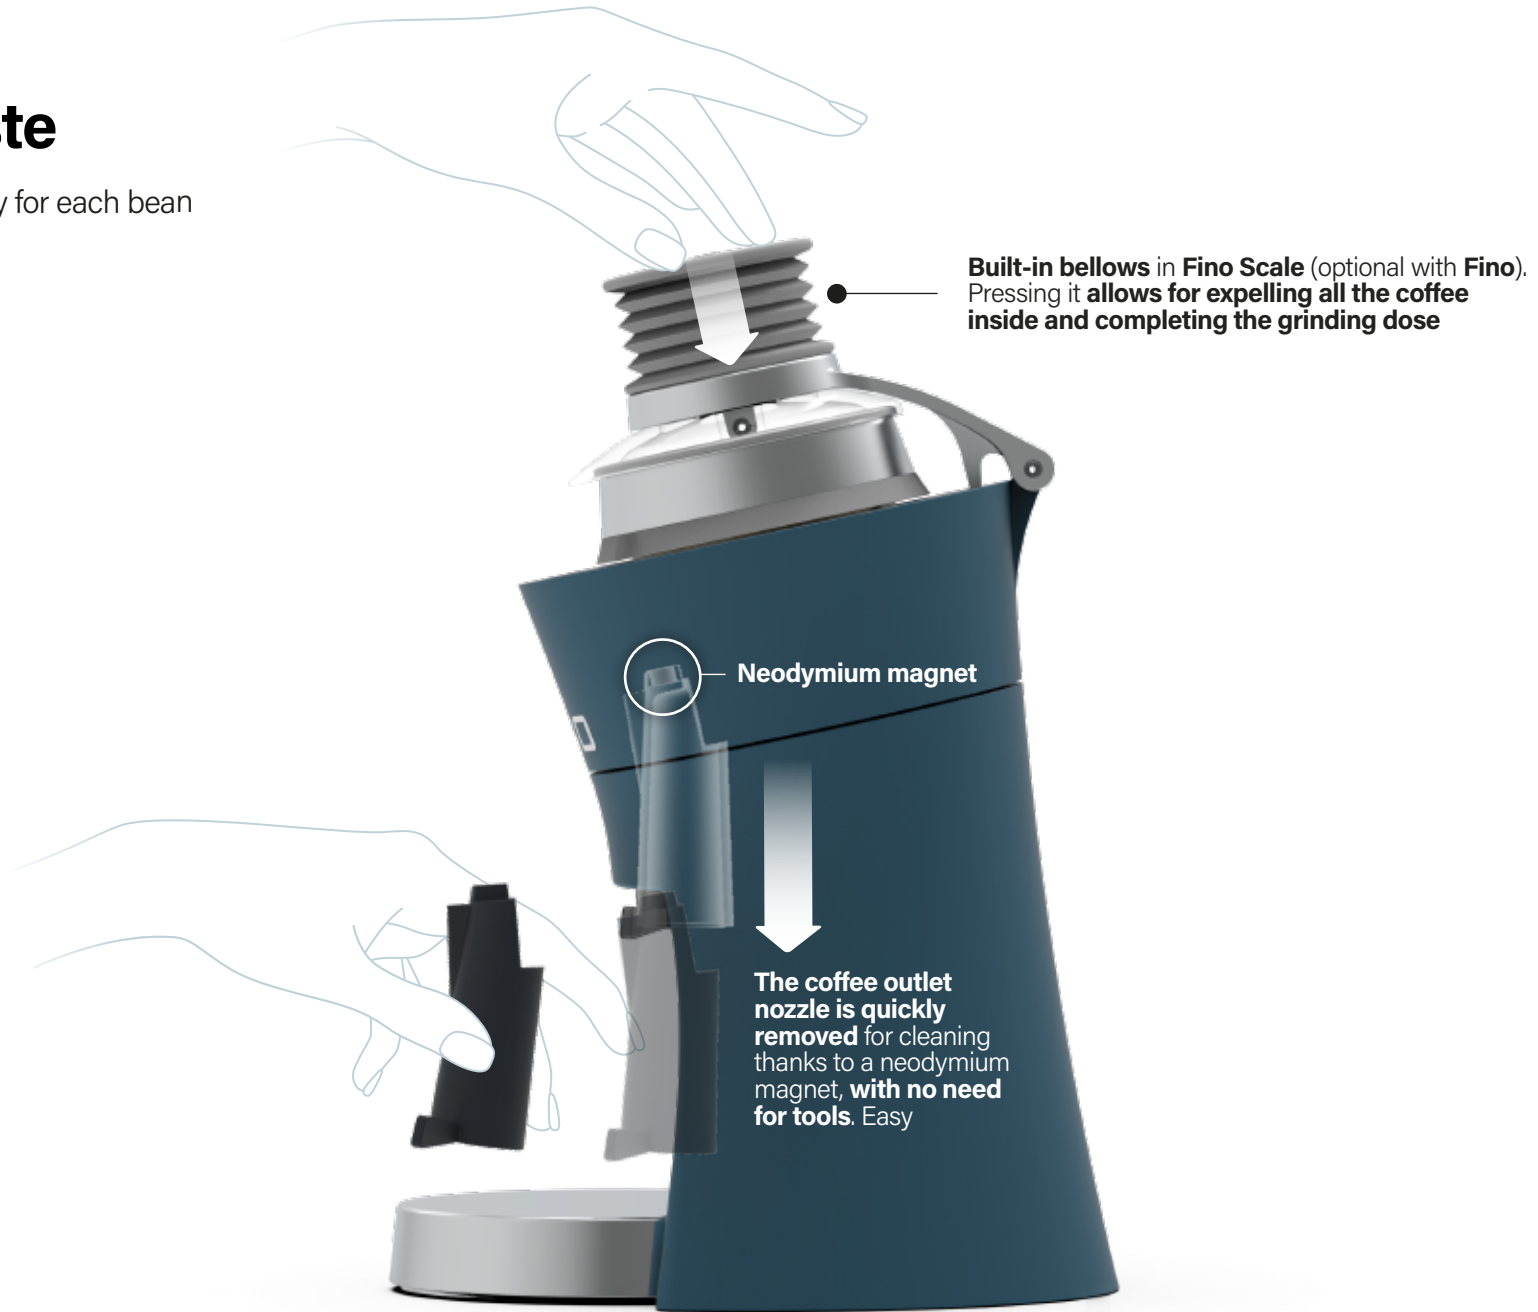

Espresso

Turkish coffee

Zero coffee waste

Fino maximizes grinding efficiency for each bean and ensures minimal coffee waste

High-precision scale

With the **state-of-the-art precision scale**, **Fino Scale** allows you to grind your coffee with the exact amount needed, ensuring **optimal consistency in every preparation**

07.5
GR

High-precision **load cell** ($\pm 0,1$ g)

Safety first

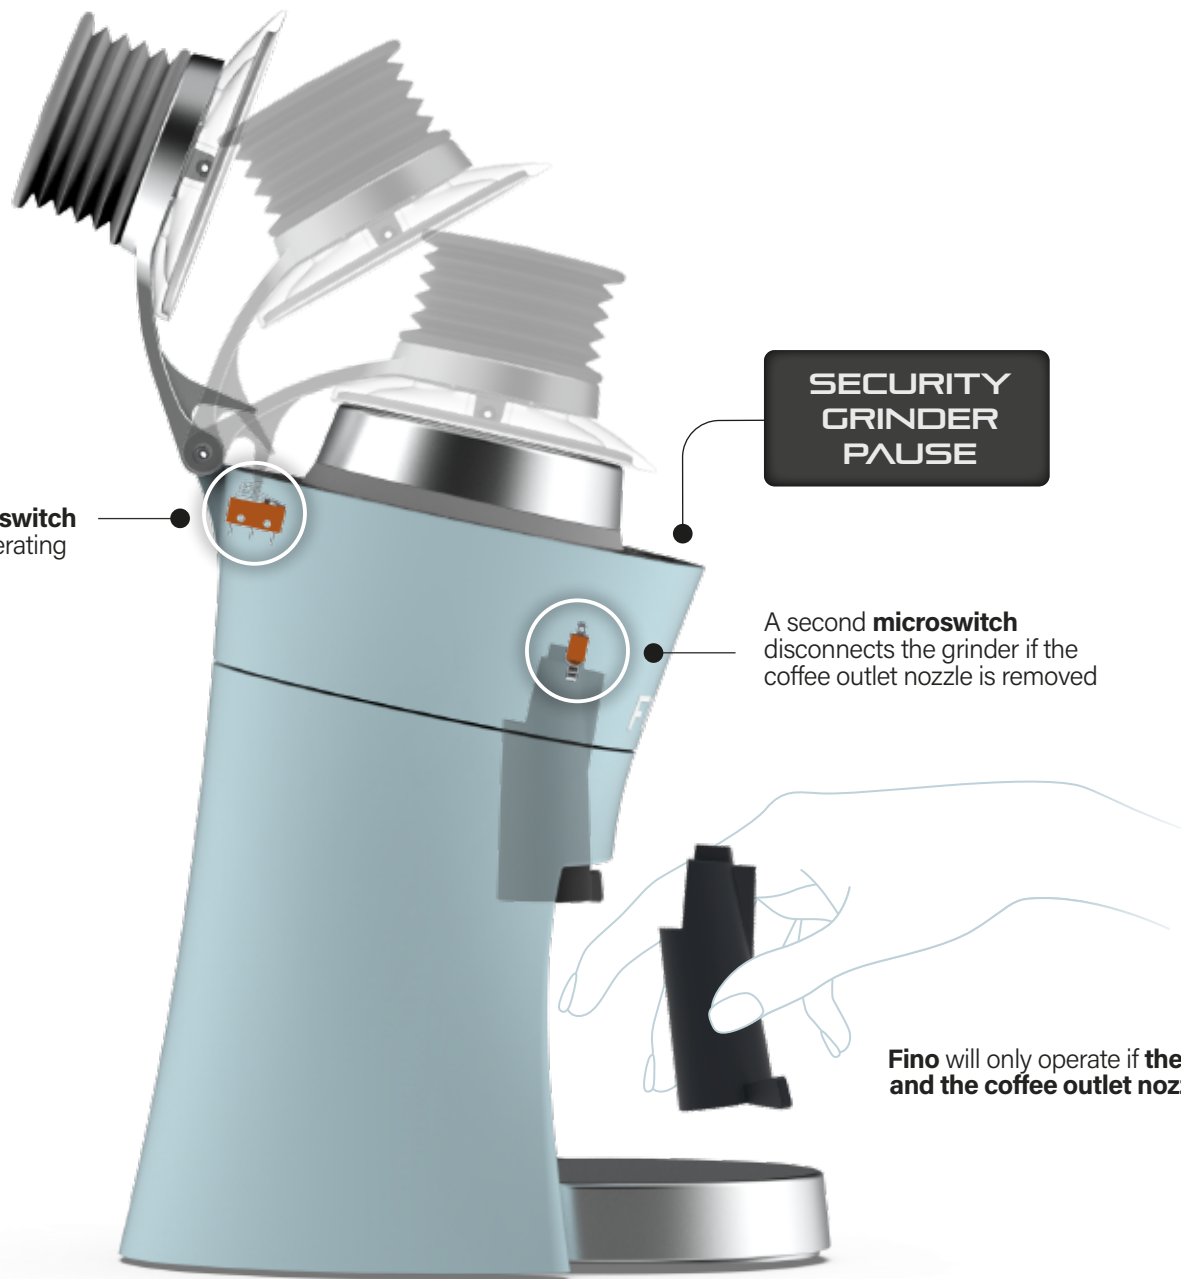

The safety microswitches are designed to automatically stop the grinder operation and prevent any incidents

While the lid is open, a **microswitch** prevents the grinder from operating

SECURITY
GRINDER
PAUSE

A second **microswitch** disconnects the grinder if the coffee outlet nozzle is removed

Fino will only operate if **the lid is closed** and **the coffee outlet nozzle is in place**

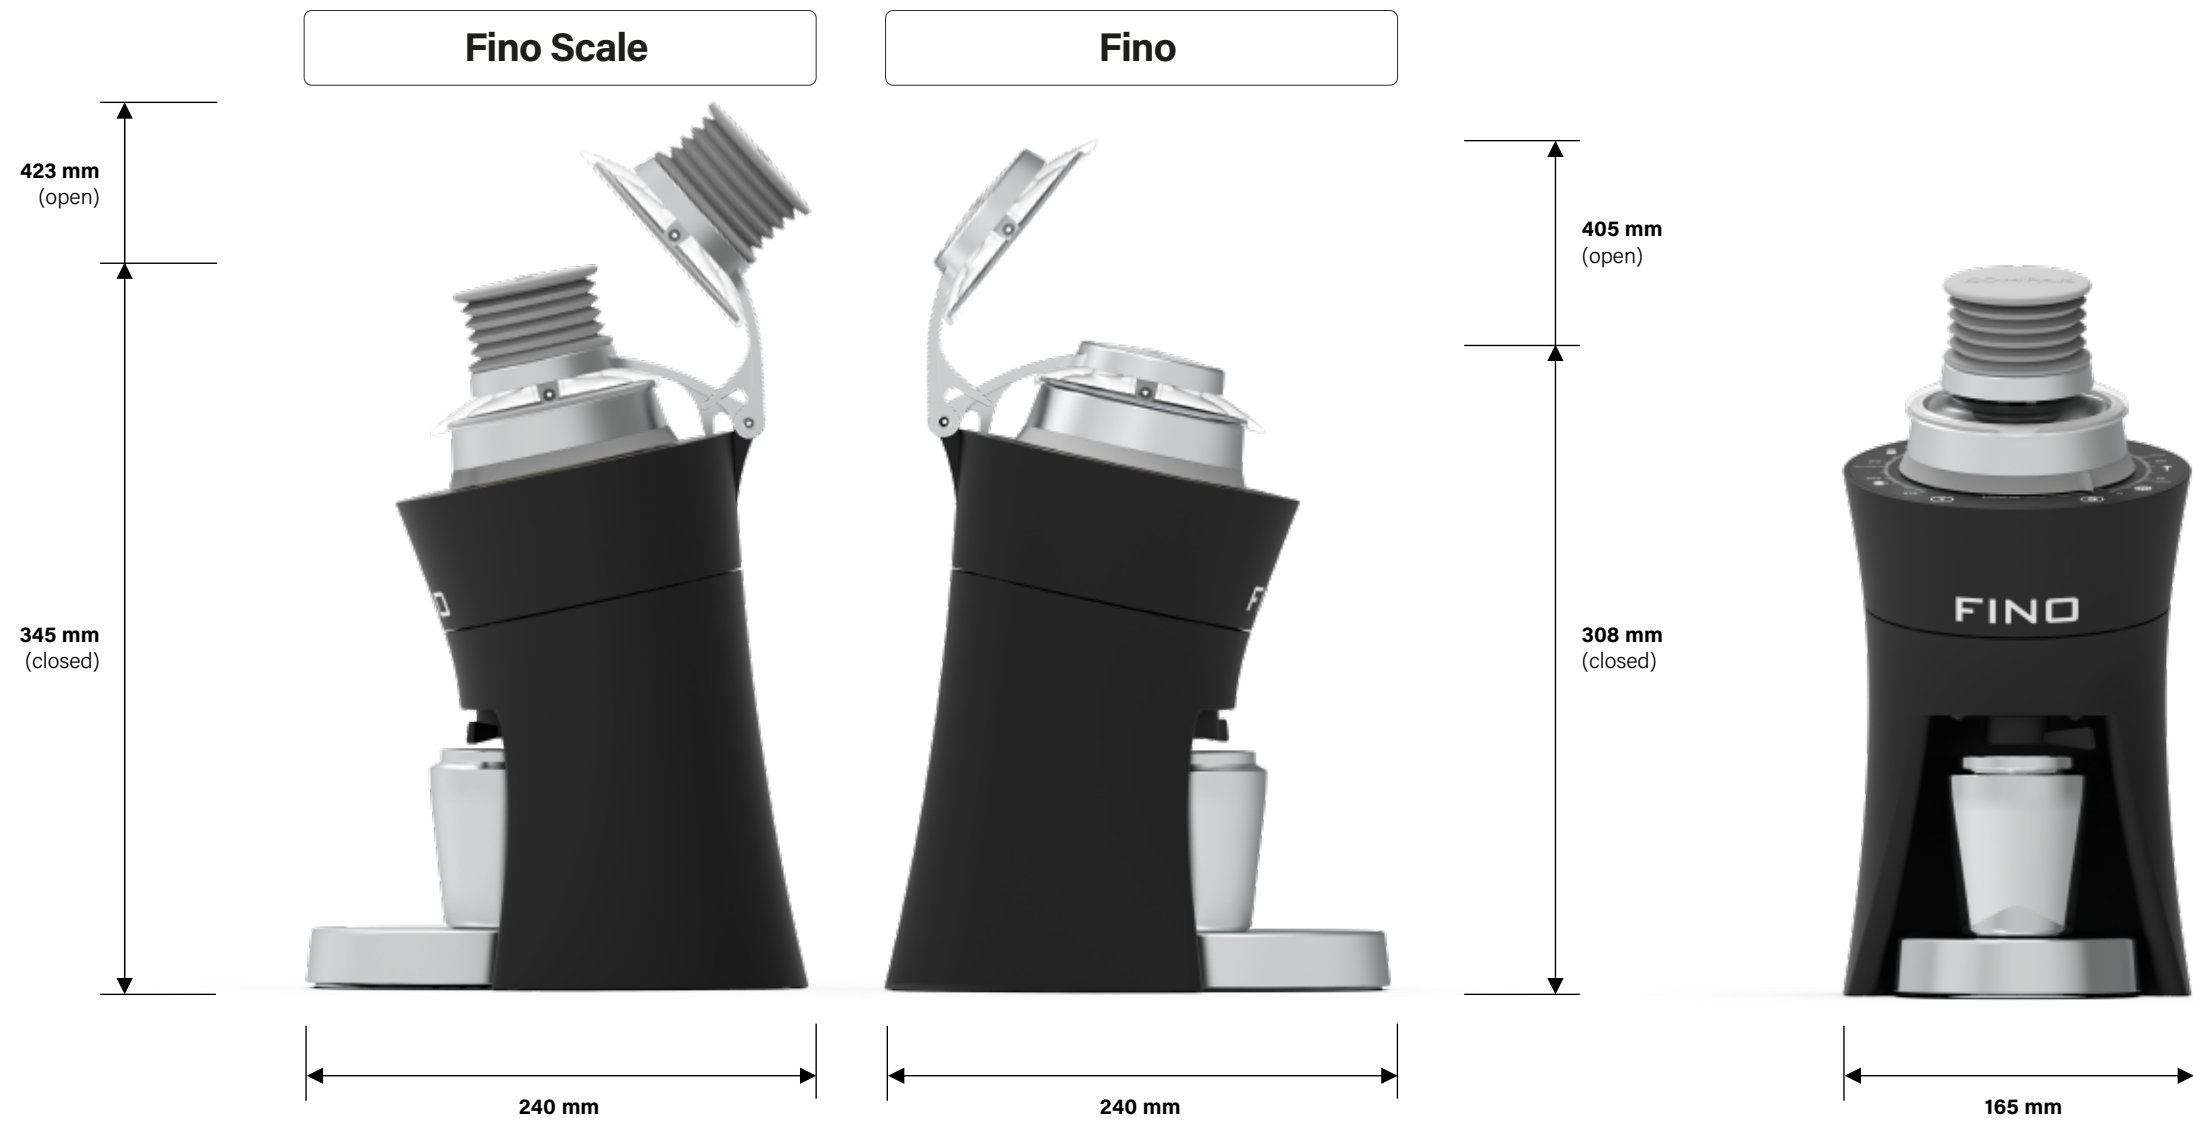

Access and cleaning of the grinding chamber

It is recommended to clean the grinding chamber monthly with an appropriate cleaning product to eliminate the odor from coffee residue that can negatively affect its quality

Sizes

Technical sheet

Fino Scale/Fino		
 Motor output	250	W
 RPM	360	rpm
 Ø Burrs	Conical Ø 63	mm
 Burrs durability *	750	kg
 Production *	1,4	g/s

* Production and durability based on a medium roast coffee and grinding point for Espresso.
There is a direct relation between the wear of the burrs and the increase in time per dose
